SECURITY INFORMATION

CHIEF, Classification & Wage Admin. Division

15 April 1952

O/TR

Position U-548, [REDACTED]

25X1A6b

1. The above position was recently changed from GS-4 to GS-3 when various grade adjustments were made in the [REDACTED] T/O.

25X1A6b

2. It is felt that this position should not have been down-graded as it is the only Clerk-Stenographer position in the Personnel Section. Furthermore, no position has been established as assistant to the Personnel Officer and the incumbent will be expected to assume a great deal of independent responsibility in assisting in the supervision of the Personnel Office.

3. Request is therefore made that the position be restored to GS-4.

25X1A9a

[REDACTED]  
Personnel Officer, O/TR

CHIEF, Classification & Wage Admin. Division

15 April 1952

O/TR

Positions U-489 through U-489.09, [REDACTED]

25X1A6b

1. The above positions have been established on the T/O as Boiler Firemen, WB-7. [REDACTED]

25X1A6b

2. Efforts to recruit qualified men for these positions in the area have been unsuccessful as the local rate is in the neighborhood of \$1.80 per hour compared with WB-7 scale of \$1.37.

3. It is believed that the wage discrepancy is due to the fact that the title Boiler Fireman does not accurately describe the duties and responsibilities and that Operating Engineer (Steam) at WB-15 is the correct title.

4. Request that T/O adjustment be made as indicated above.

[REDACTED]  
Personnel Officer, O/TR

25X1A9a
